

- The web page where we type the number 46 as an example to save it the database

A screenshot of a web browser window. The address bar shows "الإشارات الأخرى" (Other signals). Below the address bar, the text "type an integer number" is displayed. Underneath this text is a text input field containing the number "46". Below the input field is a button labeled "click to save".

- The database where the taken integer from web page saved and shown in it

A screenshot of the Microsoft SQL Server Enterprise interface. The title bar shows "LAPTOP-2VKGHPH2\MSSQLSERVER05.integers\_db - dbo.integer\_table - Microsoft SQL Server". The menu bar includes File, Edit, View, Project, Query Designer, Tools, Window, and Help. The toolbar contains various icons for database operations. The Object Explorer on the left shows the database structure: "LAPTOP-2VKGHPH2\MSSQLSERVER05 (S)" > "Databases" > "integers\_db" > "Tables" > "dbo.integer\_table". The right pane shows the data in the "integers" table.
